## OMB JAPAN K.K.

### About us

OMB Japan K.K., founded in 2017, acts as a strategic gateway and connecting bridge for companies from Europe and Asia. Our goal is to successfully build bilateral relationships, strengthen trade and partnerships, and enable sustainable growth in both markets.

Our initial focus was on active sales and distribution support during internationalization. Today, we have expanded our offerings to include specialized services in the trade / retail business. We focus on the trade of high-quality interior design products and exclusive food & beverage specialties, which are ideally suited to the HoReCa segment.

# Commissioned Art meets Interior Design

## Inspiration

The artist doesn't create off-the-shelf art, but rather as exclusive, distinctive pieces—each a statement of your individuality. By precisely matching the works to your existing interior design concept, a harmonious interplay of space and art is created that stylishly underscores your personal or corporate identity. Your values, character, and vision are brought to life in an authentic and powerful way.

A work by the artist is not just a decorative element, but an impressive expression of your special taste and personality.

## Areas of Application

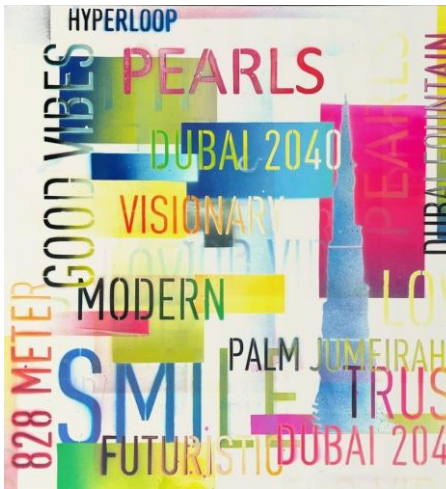

For hotels, restaurants, and cafés, custom-made commissioned art, distributed exclusively through OMB, means engaging your guests on an emotional level and making a lasting impression. These individual works of art create unique experiences and significantly differentiate your offerings from the norm. Transform your ambiance into an attraction that keeps guests coming back.

Our custom-designed artworks for public buildings express values, identity, and community. They foster cultural connection and create representative spaces that inspire and connect citizens and visitors alike. With OMB and its artist, you can set visible signs of your municipal identity and values.

We create distinctive works of art for exclusive private residences, perfectly tailored to your personality and luxurious living environment. Each work is an expression of exclusive individuality, enhancing your interior design and conveying a sense of prestige, uniqueness, and well-being.

## SPIRIT made to Picture - a new kind of IMAGINATION

The uniqueness of these custom creations lies in their innovative use of carefully selected wording, combining names, symbols, and cultural elements to vividly convey the unique spirit and identity of cities. Each artwork is individually commissioned and perfectly suited for sophisticated and authentic interior designs, particularly for the hospitality sector (hotels, restaurants, cafés), public and municipal spaces, as well as high-end luxury interiors.

*“With our motto 'Spirit made to Picture,' we precisely capture the contemporary trend towards personalization and authenticity in interior design. Our artworks not only provide aesthetic value but also resonate emotionally by uniquely highlighting the character and culture of the represented cities”, explains Michael Eckardt, Managing Director, OMB Japan K.K.*

Generally speaking, "Spirit made to Picture" means artistically visualizing the unique essence of your personality or your company. Each of our works is a unique personal piece - inspired by your individual story, your visions, and your values.

Our tailor-made works of art are powerful visual messages. Whether in the elegant ambiance of a luxury hotel, the inviting atmosphere of a restaurant, or the prestigious lobby of your company - a custom-designed work by OMB always reflects the spirit, values, and soul of the place.

Mother of four children, full-time job, and daily hamster wheel: Is it possible to break out of it?

Yes, you just have to want it, feel the strength, and have the ability to do what's good for you:

to immerse yourself, reflect, and surrender. Self-directed, not externally determined.
