

ALTAI VILLAGE

QUALITY

We see our main task as to produce only high-quality products.

We are making significant efforts to introduce the system «Lean production» in our company. The system is based on the experience of organization of Toyota (as it today the best management system in the world). The company «Svid» plans, taking into account the principles of this system, to achieve the highest quality of our development and production.

CHILDREN'S
playgrounds

For outstanding kids

OUTSTANDING PRODUCTS

Projects of our playgrounds are based on motifs of fairy tales and legends, as well as images and techniques of wooden architecture of different times and peoples, prototypes of historical ships: Columbus's caravels, Viking drakkars, etc. These are «real» fortresses, towers and mills, «real» ships with masts, sail yards, shrouds, ship cannons and helms.

AESTHETICS OF THE ENVIRONMENT

The surrounding world has
a tremendous impact on the
development of a child's crea-
tive activity. It is important for
the child's space to meet the
highest standards of aesthetics.
